## Introduction

Maritime Academy has invested in a range of resources, including computers, Laptops and other mobile devices, to support you in your learning. A key part of learning is access to the internet and all computers have internet access.

By understanding and following these rules it will ensure that everyone keeps safe and you can maximise the value you gain from your time online.

Please ensure that you read through these rules, with your parents or carers, and that you understand them. You should sign and date **Appendix 1** to demonstrate your commitment to using our one:one devices in line with our expectations. If you have any questions please contact a member of the IT team, or speak to your tutor or class teacher, who will be able to help. You should also know that at the Maritime we have the right to monitor all activities on Academy resources and use of the internet when connected through the Academy network.

Firstly, your safety online is most important.

### General e-Safety advice for students – protecting yourself online

Technology has revolutionised the world we live in today. Computers, the internet and mobile telephones have made communication easier and faster. The internet is a wonderful resource which has many benefits to your studies.

You do however need to be aware, and careful, of how you use these resources. Remember, that whatever information you read online that there is little quality assurance to check the accuracy of what you have come across.

To stay safe online, particularly when using Instant Messaging, chat rooms and social networking sites, there are some simple rules to follow, known as the **SMART** rules:

**S – Safety - Keep safe** by being careful not to give out personal information – such as your name, email, phone number, home address or academy name – to people you do not trust online.

**M – Meeting** someone you have been in touch with online can be dangerous. Only do so with your parents' or carers' permission and even then, only when they can be present.

**A – Accepting** emails, IM messages, or opening files, pictures or texts from people you don't know or trust can lead to problems – they may contain viruses or nasty messages.

**R – Reliable**, someone online may be lying about who they are, and information you find on the internet may not be reliable.

**T – Tell** your parent/carer or a trusted adult in the academy if someone or something makes you feel uncomfortable or worried. You can report online abuse to the police at [www.thinkuknow.co.uk](http://www.thinkuknow.co.uk) but we would prefer that you talk to us about anything that worries you. If you are unsure speak to your Form Tutor or Miss Kemp, who will be able to give you advice.

## Academy network – confidentiality

This section is about how you should look after your account, and our expectations of you, in relation to keeping your log-in secure.

- All students are provided with a unique log-in to access both the Academy network and email, along with other linked accounts. **Students should keep their password secret.**
- If you suspect that another student knows your password you should change it immediately, and inform a member of staff.
- If you forget your log-in or password you should contact a member of the IT team as soon as possible to have it reset.
- Each student has their own secure file storage area which should only be used for storing Academy work, and use of their own personal OneDrive. It is your responsibility to keep this area tidy and to delete any unwanted files.
- Students should never attempt to access another student's user area.
- Computers should be used for Academy work only and should not be used for playing games or social-networking, unless you have been given permission by a member of staff.
- As with any Academy property, you must not tamper or damage computer equipment in any way.

### This includes:

- Graffiti.
- Altering the display properties of the monitors without permission.
- Unplugging or moving devices such as keyboards and mice.
- Maliciously reconfiguring devices to alter functionality.
- Eating and drinking is strictly prohibited near computers, or mobile devices.
- Students are encouraged to utilise OneDrive through Office 365 if you need to access documents away from your Academy. This ensures files and data remain safe and secure. Only in specific

circumstances are USB sticks/removable media allowed and your teacher will inform you where there is a specific need. Removable media must be encrypted to use on Academy systems.

## Internet and VLE usage – in your Academy

This section is about using the internet whilst at your Academy. Normally any students who have access to the internet are supervised by a member of staff. However, when working as independent learners we expect you to use the internet in a sensible way.

All computer/internet activity is remotely monitored and recorded including down to keystroke level. The Academy has an internet filtering system which prevents access to inappropriate content.

Students should be aware:

- Any attempt to bypass the internet filtering system is strictly prohibited. Unfortunately, no internet filtering system is perfect. If any inappropriate content is accidentally accessed, a member of staff should be informed immediately.
- Unless you have been given permission by a member of staff, you must not access chat rooms, instant messaging or social networking sites (e.g. Facebook, Instagram, Twitter) from the Academy network. You should be careful when accessing these sites in your own time and we would encourage you to make sure your parents know you have accounts for social networking sites.
- Students are provided with an email address which may be used for appropriate communication within the Academy, or for other educational purposes. You should only use your Academy email account to communicate with other students or staff.

## Achievement and Behaviour

Using the internet, computers or other resources is treated the same as any other Academy property or resources. Where you have behaved above expectations, such as a quality piece of work, reporting concerns, or showing your awareness of e-Safety, then this will be awarded with Maritime Merits

Equally, staff will follow the behaviour policy and there will be Demerits, if internet access is abused, or if any of the rules above are ignored. You may also have your access to the internet or Computers limited.

## Peer on peer abuse

Students should adhere to our behaviour policy when using the internet inside and outside of the Academy.

Students must not use ICT or the internet in a way to purposefully harm others. This includes:

- Name calling
- Threatening language, pictures and videos
- Bullying
- Sending of inappropriate images
- Sexual harassment
- Any other behaviour that is not in line with our Ethos and Values

If you are identified as being involved in this, then the Academy will apply sanctions in line with the behaviour for learning policy.

We encourage students and parents to report any examples of poor behaviour online to a member of staff in the Academy.

Please note that the use of mobile phones in or around the Academy site is strictly prohibited and any breach of this will be managed in line with our Behaviour Policy.

## More information on where to go for help

If you come across something online, or in your Academy, that makes you feel uncomfortable or you feel is wrong, you should try to talk to someone. It might be your parent/carer or a trusted adult in the Academy. We would encourage you to say something so we can help, or put your mind at rest. There are other places you can go for help, such as:

### **CEOP (Child Exploitation and Online Protection Centre) [www.ceop.police.uk](http://www.ceop.police.uk)**

You can report any online activity that feels uncomfortable to the CEOP. For example, it could be a conversation with someone online who you think is not who they say they are and asking you to do things that you really know aren't acceptable, or suggesting that you meet up with them.

CEOP is staffed by specialist police officers, social workers, counsellors and investigators, who are trained to deal with young people who have had bad experiences online. If you report anything to them they will take it seriously, investigate further and someone will follow up to make sure you are okay.

### **Think U Know [www.thinkuknow.co.uk](http://www.thinkuknow.co.uk)**

An excellent advice website with age specific information on all aspects of e-Safety.

**ChildLine [www.childline.org.uk](http://www.childline.org.uk)**

You have probably already heard of ChildLine. If you feel that you are being bullied online you can talk to someone in confidence by calling ChildLine on 0800 1111.

**Internet Watch Foundation [www.iwf.org.uk](http://www.iwf.org.uk)**

Any content that you come across online which you think might be illegal, should be reported to the Internet Watch Foundation at [www.iwf.org.uk](http://www.iwf.org.uk).

## Appendix 1 – Student 1:1 Device Agreement

I understand that I must use my 1:1 device in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

- I understand that whilst using my 1:1 device that I am responsible for my actions, both inside and outside of the Academy;
- I understand that whilst using my 1:1 device in the Academy that is primarily intended for educational use and that I will not use it for personal or recreational use unless I have prior permission;
- I understand that I am responsible for looking after my 1:1 device and will ensure to keep my 1:1 device in my bag or protective sleeve when not in use;
- I understand that when travelling to and from the Academy that I should take steps to ensure that my 1:1 device is not visible to other members of the public, but if I am approached for my 1:1 device that I should protect myself handing over my device without resistance and reporting the incident as soon as possible to a parent/carer, Academy or the Police;
- I understand that I must bring my 1:1 device into the Academy every day and ensure that it has a fully charged battery;
- I understand that to provide a safe experience whilst using my 1:1 device that the device is managed by the Trust's Mobile Device Management system and that the Academy may monitor my use of the my 1:1 device to keep me safe;
- I will respect others student's 1:1 devices and will not attempt to access, deface or vandalise other student's 1:1 devices;
- I understand there are risks when using the systems and services, and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials;
- I will not install or attempt to install or store programmes of any type onto my 1:1 device, nor will I try to alter any settings applied to my 1:1 device;
- Whilst using my 1:1 device, or accessing other ICT Facilities provided by the Academy I will ensure my behaviour is in accordance with the Acceptable Use Agreement.
- I understand that if I fail to comply with this 1:1 Device Agreement, I will be subject to disciplinary action.

This may include loss of access to use my 1:1 device whilst in the Academy.
